Professional Summary

Skilled Senior Front-End Web Developer with over 9 years of experience driving the vision, strategy, and execution of critical web sites and delivering intuitive and responsive user experiences. Extensive experience in all aspects of web development including architecting and developing front-end solutions, championing responsive design, working with software developers and designers, creating guidelines and policies, mitigating technical issues, and collaborating with cross-functional teams. Continually exceeds expectations by staying up to date with the latest frontend technologies, trends, and best practices.

Skills

- Front-End Web Development Best Practices
- SEO Optimization & Analysis
- Strategic Planning & Roadmap Creation
- Test Execution & Defect Matrices
- Resource Allocation & Timeline Monitoring
- Business & User Requirements Gathering
- Solution Design & Deployment
- Cross-Functional Team Collaboration
- Digital Web Strategy & Policy Development
- Excellent Written & Verbal Communication

Work History

Senior Front-End Developer – CNA Insurance – Chicago, IL 06/2017 to Present

- Developing and maintaining complex web applications using modern front-end technologies such as React JS and Next JS.
- Developing full stack applications by effectively utilizing Node JS and React JS open-source platforms.
- Creating reusable UI components to reduce duplicate code for applications as well as cross-device responsive web pages.
- Staying up to date with the latest technologies, trends, and best practices and implementing CSS and text animations.
- Integrating component libraries such as Material UI and building CI/CD pipelines with concourse CI and GitHub Actions.
- Working with code packaging and source code management such as GIT and integrating data visualization using D3.js.
- Building server-side applications with NodeJS, Express, GraphQL and REST API and working on SQL and NoSQL databases.
- Experience In DevOps practices, Containerizing application with docker and deploying In Kubernetes in GCP Cloud.
- Using light-weight CSS-preprocessors such as SCSS and utility frameworks Tailwind CSS to create elegant user Interfaces.
- Authored/presented project narratives and requirements to leadership and successfully pitched new approaches.
- Developing applications using the Agile Software Development Lifecycle and executing unit tests using Jasmine and Karma.
- Building accessible applications and conducting code reviews and providing constructive feedback to junior developers.
- Collaborating with designers, product managers, and backend developers to ensure seamless integration of systems.
- Participating in agile development processes, including sprint planning, daily stand-ups, and retrospectives.
- Working closely with QA engineers to ensure high-quality software releases and facilitate smooth deployment.
- Establishing and integrating a coding style while migrating a legacy codebase to modern front-end technologies.
- Utilizing testing frameworks such as Jest and Enzyme to ensure a high standard of code quality and reliability.
- Mentoring junior developers, conducting code reviews, and promoting best practices to maintain code consistency.
- Integrating third-party APIs and libraries to enhance application functionality and optimize user experience.
- Supporting production releases, validating functionality, and conducting code checkouts to ensure streamlined rollouts.
- Developing user authentication with Okta, enabling secure login, logout, and account management processes.
- Integrating authentication workflows and resource access control, ensuring secure user experiences with applications.
- Conducting security audits and implementing measures to mitigate potential vulnerabilities within the authentication system.

- Implemented HTML to ensure industry and company standards for SEO and accessibility.
- Developed a UI components library used across the organization and using existing libraries, frameworks, and RESTful APIs.
- Worked with communications stakeholders to determine needs and make recommendations about what was possible.
- Collaborated with designers and UX/UI teams to translate wireframes and mockups into interactive web interfaces.
- Developed dynamic and responsive user interfaces using React JS, enhancing front-end performance and user experience.
- Used CSS Media Queries as well as utilized CSS3 recapitalizing concepts to create user-friendly responsive designs and pages.
- Provided extensive insight into the system development lifecycle and integrated Agile software development strategy.
- Worked independently on fast-paced, deadline-driven Agile projects and kept all tasks within budgets and timelines.
- Tested front-end code in multiple browsers to ensure cross-browser compatibility and optimized UX across a range of devices.
- Successfully leveraged responsive web frameworks to consistently complete product deliverables ahead of schedule.
- Followed WCAG standards for accessibility and reviewed Google Analytics to identify areas requiring further attention.
- Utilized web technologies such as CSS3, HTML5, and JavaScript to streamline front end development projects.
- Created libraries of documentation for knowledge sharing and best practices to share across technical and design teams.

Technical Skills

- Front End: HTML5, JavaScript, React JS, Next JS, Redux, Bootstrap, Material UI
- Styling: CSS, Tailwind CSS, SCSS, styled component
- Backend: Node JS, Express JS
- Database: NoSQL (MongoDB), Mongoose, Relational (MySQL), ORM
- Testing: Jest, Enzyme, React Testing Library
- Debugging Tools: Chrome DevTools, React DevTools.
- CI/CD: Docker, Kubernetes, GKE, GitHub Actions, Concourse CI, GCP Cloud
- Other: TypeScript, ES5, ES6, REST API, GraphQL, Webpack, Jira, Cross-Browser-Compatibility, Okta, SPA, Microservices, Apollo GraphQL, TDD, NVDA Screen Reader, Bitbucket, D3.js, Microsoft Teams, Microsoft Office Suite: Word, Excel, Outlook, PowerPoint

Education

International College of Business and Technology, Kandy, Sri Lanka – 2008

BTECH Higher National Diploma in Computing
